

Open Portals

Rocketprint software is pleased to announce the release of Open Portals. This new Portal structure has all the features and benefits of the Private Customer Portals except NO portal code login is required. This means each Open Portal is a stand-alone storefront that can be accessed directly or embedded into any other website. Each Open Portal can reflect the products and pricing from your main Rocketquotes storefront or offer an entirely different product line and pricing structure.

All portals can be configured so that you stay completely anonymous, allowing you to brand each Open Portal to fit the application. All orders from each portal funnel into your one Administration area, giving you quick access and easy management.

The opportunities are endless as you can create Open Portals to expand into areas such as:

- Target Specific Industries
- Partner with Print Brokers
- Non-Profits that do fund-raising
- Partner with other Printers
- Build multiple brands
- Advertising and Design Agencies
- Companies that want to sell printing or related products
- and more

WINSTON-SALEM JOURNAL

The Journal is primarily distributed through Forsyth County and the county seat of Winston-Salem. However, the paper also is distributed in Alleghany County, Ashe County, Davidson County, Davie County, Stokes County, Surry County, Wilkes County, Watauga County, and Yadkin County. The newspaper has an online presence called JournalNow. The Journal's television partner is WGHP of High Point, North Carolina.

The paper also produces a weekly entertainment and social tabloid called Relish
